Sir,
I read in last week's issue of your paper a letter signed "REGINA TRENCH".

If this returned man is a member of his local G.W.V.A. he should instead of taking his troubles direct to Ottawa consult his own officials.

The S.S.B. is a reasonable outfit to deal with but they have rules and regulations made by the Government from which they cannot depart, the only way to get at them is through the G.W.V.A., who if they do not obtain satisfaction go to Ottawa through their own representatives and if there is any chance at all for a man they are in a position to see his opening considered.

Yours truly
"Member of G.W.V.A."

Mr. Blackstock formerly farm Manager of the Vermillion School of Agriculture will conduct a lecture on Power Farming in the L.O.O.F. Calgary, Alta.

We send you our hearty congratulations on Province of Alberta leading entire sales forces in six months contest with one hundred forty six eight tenths per cent quota, thus winning silver loving cup and thousand dollar prize. Also Canadian Division leads all other divisions in six months contest by narrow margin of three tenths of one per cent.

Delco Light Company

This surely speaks well for Alberta, via leading the world sales for Delco Light. Mr. Beattie will gladly furnish any information regarding this Modern Lighting System.

Mr. L.W. Bell from Lethbridge is now managing Mr. Blaine's Drug Store, Bow Island.

Miss Peterson who had been visiting her sister Mrs. A. Anderson returned to Lethbridge last week end.

Mr. and Mrs. F. Smith and family left Tuesday last for Roseburg, Oregon where Mr. Smith will be engaged logging timber. Mr. Smith will return some time in the spring for the purpose of looking after his interest, their friends wish them good luck.

A farewell party was held at Simpson's, north of town last Monday evening for Clarence McWilliams who has left for Lethbridge. Two sleigh loads of boys and girls went out. The evening was spent in playing games, lunch was served about twelve o'clock after which the crowd departed for home.

The Ladies Aid gave a farewell party in the Rest Room last Monday afternoon for Mrs. McWilliams who has moved to Lethbridge. A short programme was given after which lunch was served.

Mr. and Mrs. McWilliams left for Lethbridge last Wednesday morning.

Mr. O'Neill spent the week end with his family.

Press of France Satisfied with Conference Vote

Majority Holds Compliment Is Paid
to Premier Briand
MINISTRY WILL BE

JUDGED BY RESULTS
Some Newspapers Express Certain
Veiled Scpticism

PARIS—Newspapers of this city expressed satisfaction with the vote of confidence given the Briand Ministry in the Chamber of Deputies, but there was a noticeable lack of enthusiasm. A majority held the view that the vote was an expression of confidence, not in the Ministry, but in M. Briand, the champion of France in the approaching meeting of Premiers. It was declared the chamber meant to give maximum authority to the men who will plead her cause, and that the Briand Ministry was not judged on its declaration, but will be judged by the results of the conference of Premiers.

"Friday's long speech by M. Briand," said the Echo de Paris, "does not appear to give any more light than the Ministry's declaration, except on one point: 'Payment of a lump sum by Germany is not my thesis.' These words were pronounced by the new Premier, and we will do as the chamber did, and will take note of his promise. A large credit of provisional confidence is opened for M. Briand,

and none desire more than to see him make the best use of it for the interests of the country."

Veiled Scpticism

Some newspapers manifested a certain veiled scpticism, the Petit Girondin, one of the most influential provincial organs, declaring: "What the nation finds to be strange in that we should be obliged to negotiate ceaselessly with the Allies in order that they may help us to obtain the execution of a treaty signed by them. Therefore, if, with the same methods, M. Briand succeeds in getting better results than have been achieved in the past, we may then say he has deserved well of his country."

From our own Correspondent

The U.F.W.A. held a very lively meeting on Friday evening Jan. 29th. The various discussions were enjoyed by all.

Mr. W. McDonald made a business trip to Medicine Hat during the week. Mr. G. Fisher has rented the Frank Smith farm and expects to move out to it soon.

Miss Velva Pederson is teaching school in the Conquerwood district.

Mr. L.C. Gow and Miss Bessie Gow were calling on Mrs. Fisher Sunday afternoon.

American Emigrants are Coming

WINNIPEG—An army of land-seekers in the United States is waiting for the opening of the season to invade Western Canada in search of farms, according to Government agents and land men, who returned recently from an extensive trip south.

The spring rush if immigrants this year will be the largest in the history of the west, they report. It will be the "cashing-in" period of the preparatory work put in by hundreds of Canadian agents in the wheat and corn districts of the United States during 1920, according to the land men.

Forty thousand land seekers from the south came to Canada last year to inspect lands. They acted as the scouts for the whole communities and next year the west will realize on this advance work. Inflated prices of land in the United States is given as the main reason for the expected exodus.

"The land seekers will become immigrants because the same conditions which drove them forth to seek new fields are still operating at present," one of the agents said recently.

"Land boomed to undreamed of heights last spring. Farms valued at \$100 an acre reached \$400 an acre. Rents rose and farmers were paying

\$30 and \$40 an acre rent a year. The grain slump later cut off all their profits and many were left just where they started. Our publicity work by this time has convinced them that it is better business to buy land at \$20 and \$40 an acre than to pay that amount for rent."

The majority of settlers are expected from Minnesota, the Dakotas, Montana, Ohio and Illinois. In former years the urge for Canada has taken farmers out of the new England states, Michigan and Virginia and Kentucky, in addition to the northern and bordering states.

Creston B. C.

Mr. James Frame, who was accidentally killed at the Sand and Door Mill at Kitchener last week, had been in the employ of the company for several years, and the men from the province who worked at the mill and had the pleasure of his acquaintance deeply regret the sad accident.

The Canyon City Saw Mill which has been closed down for the past five months, has resumed operations with a full crew of men.

The Great River, along the Winlaw timber limits, is stocked with logs for over a mile, which will be driven to Winlaw mill at Duck Creek as soon as the water raises sufficiently in the spring.

Miss Ida Sevald has returned to Creston after a pleasant visit with her sister in Spokane.

The weather seems to be made to order as far as the loggers are concerned, the sled roads are in a fine shape and the weather mild.

The shipments from Creston for the first month of the year consisted of one car of apples, four cars of railroad ties, three cars of lumber, one car of stock cattle, one car of dressed beef besides quite an amount of apples and beef by express.

This shows that we produce other commodities besides fruit.

Mr. Richard Kirsch and Mr. Frank Reams came in from their logging camp Saturday evening.

J.P. Peairs, who was injured while working in Schoner's logging camp and came down for medical attention, returned to work Monday.

Foremost

Mr. Jamieson of Leithbridge has Mr. Wright of Bow Island with his well drilling machine engaged in boring a well for Oil, eighteen miles south of Foremost. Charles Thompson of Bow Island District is working on the outfit. Work was started on Thursday last Jan 27th, and boring operations will be pushed ahead with great hopes that oil will be reached in the near future.

From reports to hand, this district is looked upon by experts to be in the oil belt. Mr. Jamieson is one of the directors, and is a brother of Mr. H.G. Jamieson of Bow Island who just recently moved to Medicine Hat. Developments will be awaited with interest and should the operations prove successful it will be a splendid asset to the District, we wish them every success in their work and let the good work go on.

Farmers in Favor of Dry Law

TOLERANCE SHOWN
IN VARIOUS DEBATES
Convention Comes to an End With Business Unfinished

EDMONTON.—By a standing vote the delegates to the U.F.A. Convention went on record as favoring total prohibition in the Province, at the session on last Friday afternoon.

With the singing of the National Anthem, sang as heartily, if not more so than any of their rousing rallying songs, another milestone was added to the history of the United Farmers of Alberta on Friday night.

The thirteenth annual convention thus brought to a close, certainly in point of numbers of delegates, was an out and out record and is an eloquent tribute to the enormous progress that the organization has made since its inception.

Many important subjects affecting the agricultural interests of the Province were discussed with an intelligence which at once amply demonstrated the fact that Alberta farmers have made the best possible use of past experience. Contrasted with conventions of only a few years ago the great strides that have been made, even in the rules of debate, alone well entitles them to term their big annual gathering "The Farmers' Parliament," and in this connection no more able chairman than H. Greenfield, of Westlock, ever presided over an assembly.

Much Tolerance Shown

Right throughout the convention there was that tolerance displayed for the "other fellow's" view, that was nothing if not singularly refreshing. This feature was brought as prominently forward as the depth of understanding displayed by almost all of the speakers. Alberta certainly in this respect need not be ashamed of her farmers.

The great outstanding feature of the convention was, of course, the decision of the delegates on the suggested Co-operative Wheat Pool. In acting as they did they displayed sound common sense. The magnitude of the issue is such that it will take the very best brains of the country to bring it into perspective. As stated by H. W. Wood, the President of the organization, it would be far better to delay action for even two or more years and be sure of success than to rush into the scheme haphazardly and make it a failure.

Political Action

Not the least important point that will undoubtedly engage the attention of the executive and Board of Directors during the coming year will be that of political action. In this respect the atmosphere has now been made quite clear. That is that there are not two branches of the U.F.A., and that whatever political activities are engaged in it will be the sentiment of the organization as a whole.

Although good progress was made with the vast accumulation of resolutions during the convention, time did not permit for anything like the whole of these to be dealt with. On motion it was decided to refer the latter to the directors for action at the earliest possible moment.

Refuse This Clause

At the concluding session the convention flatly refused to pass a resolution that a universal minimum wage law be included in the farmers' platform. Chairman Greenfield remarked that it would be a mistake to inter-

mix labor planks with theirs. "Let labor have its own platform," he said. "We are quite willing to co-operate."

On another point in connection with labor, the Government Labor Bureau came in for quite a grilling by some of the delegates. Clover Bar Local had a resolution asking the convention to go on record that the private employment agencies be allowed to again do business in the Province. It was pointed out by some of the delegates that the bureau last season evidently only endeavored to get bigger wages rather than to help the farmer.

The chairman stated that arrangements had been made whereby the bureau officials, the labor people, and farmers' representatives would meet at Regina, and he suggested that the matter be left in abeyance until then and dealt with by the executive. He cited a case where it was entirely a farmer's fault in being instrumental in increasing out of all proportion the wages of help. The suggestion of the chairman was agreed upon.

Not Without Mirth

Although there were many instances throughout the convention that caused the utmost mirth, not the least being the "ball" of the chairman on one occasion, when he announced that "a black lady's purse" had been found, by Verdant Valley Local came up shortly before the final close of the proceedings. This was in connection with petitioning the Government to fix a Thanksgiving date suitable to rural districts. A portion of the resolution read, "whereas moonlight is essential for rural social activities," and the request was made that "Monday or so before full moon in October"

would be the most suitable time."

"I think a lady must have drafted that resolution," remarked Chairman Greenfield, while the farmers roared forth their hearty laughs. A few of the plucky farmers held up their hands when "question" was called, but they were snored under by the others, who did not care a fig about moonlight.

Invisible Choir

Mystery is finally Solved

CHAMPAIGN, Ills.—The mystery of an invisible choir which has stirred the congregation of a Paxton, Ill., Lutheran Church, was solved when it became known that Charles Lendon, a 16-year-old student, has been experimenting with a wireless telephone. Lendon connected a phonograph with a wireless sending set in his workshop. Then he transmitted the music produced to a large horn connected with an amplifier, which was concealed in a tree just outside the church.

The church was in direct line with the sound from the horn and for this reason the concert seemed directly above the congregation. For several days the "phantom music" has been the talk of the town.

STANDING REWARD FOR CAPTURE OF BANDITS

KANSAS CITY.—A standing reward of \$500 to any person for the death of each bandit killed while attempting to rob a member bank was voted recently by the Association of Suburban Bankers.

The Petition from the Moderation League in favour of new regulations for sale of beer and wine to be made easier and the sale of hard stuff to be made more difficult is being largely signed in this district. One Petition is signed entirely by ladies, in quite a few cases the signers are those who voted against the importation from other Provinces at the last election, those who wish to see this trade put on a sensible and rational basis will find several forms in town but there is no time to lose

The Editor

Bow Island Review
Dear Mr. Editor
The Ladies Aid of the United Church Burdett are to be congratulated for the work they have done. Since the first of January they have taken quite a large slice off from the church debt, and made the passage a comfortable dwelling by adding many necessary articles to the furnishings. It is encouraging to note the gradual increase in interest and attendance at our Sunday Services, the Sunday School certainly deserves a note of praise, for the interest shown by all in the work, and the splendid average weekly attendances, during the winter months.

The Passage is a place of activity every week, Wednesday evenings a mixed group of people gather and study the "Bible by Books" this is an interesting gathering because it gives everybody an opportunity to express their own views, and from time to time settle questions which have been troublesome to them. Thursday afternoon, every week, the ladies of the Aid gather for work and social fellowship. Thursday evening, there is a gathering of teen aged boys, and on Friday evening a group of teen aged girls. These young people gather for religious education and social welfare, under the leadership of the Pastor, and are enthusiastic and unanimous in their pronouncement of having good times.

We have recently forwarded a good donation for the famine relief fund in China. It has been officially reported by the Missionary Societies working in China that four millions of people are in a starving condition in the four Provinces concerned. The Pastor will be willing to forward any further sums that may be contributed for their relief.
